

The Year at a Glance Page: A How-To Guide

Year at a Glance is a printable, one-page poster of your whole school year. It gathers what you have already entered around the app, your dates, goals, weekly rhythm, curriculum, breaks, and monthly read-alouds, and lays it out as a keepsake you can pin up or save as a PDF.

This guide explains what it shows and how to print it.

2026 - 2027

HOMESCHOOL YEAR

at a glance

Thanksgiving Break	Nov 25 – Nov 27

MONTHLY READ ALOUDS

Plan a book for each month on the Monthly Read Alouds page.

Learning Together. Growing Together.
CHALK & CHART

Opening the page

From your **Dashboard**, click the **Year at a Glance** link (a printable one-page overview of your year). The page opens as a finished poster titled with your school year and family name.

At the top are two buttons, which do not appear on the printout:

- ← **Back to dashboard** returns you to the Dashboard.
- **Save as PDF** opens your browser's print dialog so you can print the poster or save it as a PDF.

What the poster shows

Everything on the poster is pulled from the rest of the app, so it stays current as you update those pages. Each panel has a note telling you where to add its information when it is empty.

Panel	What it shows	Where it comes from
School Year Dates	Your start date, projected end date, and goals for the year.	Family page and your calendar.
Our Goals	Your Family Focus goals, with achieved ones marked.	School Year Goals page.
Our Weekly Schedule	The subjects that meet on each weekday. It shows the plain subject (for example, "Math"), not the full curriculum name, and lists each subject once per day.	Scheduled lessons on the Calendar / Curriculum & Lessons .
Our Curriculum	Each subject with how often it meets.	Your scheduled curriculum.
Planned Breaks	Your breaks and vacations, with their dates.	Breaks & holidays on the Calendar page.
Monthly Read Alouds	Your book for each month.	Monthly Read Alouds page.

Tip: If a panel looks empty, use the page it names to add that information, then come back and the poster fills in automatically.

Printing or saving as a PDF

1. Click **Save as PDF** at the top of the page.
2. Your browser's print dialog opens. Choose your printer to print on paper, or choose "Save as PDF" as the destination to keep a copy.

The poster is designed to print on the light Chalk and Chart palette no matter which app theme you use, and the two toolbar buttons are left off the printed page.

Quick reference

I want to...	Do this
Open the overview	On the Dashboard, click Year at a Glance
Print it or save a PDF	Click Save as PDF
Fill in an empty panel	Use the page it names (Family, Goals, Calendar, Curriculum, or Read Alouds)
Fix the weekly schedule	Schedule lessons so each subject lands on its weekdays
Go back	Click ← Back to dashboard
